

STEM For Kids is pleased to invite you to take part in the SFK International Game Challenge! Participants will be challenged to design and build an original computer game.

[10/26 – 4/25](#) grades K-4, Saturdays

[10/26 – 4/25](#) grades 5-8, Saturdays

[10/28 – 11/1](#) grades K-5, Track 3

[12/2 – 12/6](#) grades K-5, Track 2

[3/16 – 3/20](#) grades K-5, Track 1, Modified

[4/6 – 4/10](#) grades K-5, Track 4, Traditional

In this program, participants will learn about programming in Minecraft and germs / pathogens like bacteria and viruses, and create games / worlds to demonstrate various drug delivery pathways.

[12/9 – 12/13](#) grades K-5, Track 1

[2/17 – 2/21](#) grades K-5, Track 2

Don't just play vanilla Minecraft. Experience Minecraft with engineering, designing and budgeting. Design and build sustainable cities in Minecraft!

[1/29](#) grades K-5, Traditional

STEM Dreams in Virtual Reality Workshop

[1/20](#) grades K-5, Traditional

Participants will work like innovators in designing a phone application to solve an engineering or entertainment problem, build and program its prototype and then, like an entrepreneur, they will explore ways to market their app.

[3/9 – 3/13](#) grades K-5, Track 1, Modified

At **Morrisville / RTP STEM Center**: 112C Pheasant Wood Ct, Morrisville 27560

Scheduling flexibility- STEM Saturdays, after school, full week / half week camps and after care available.
